EXPERIENCE

Virtual Experience Simulation Lab (VESL) Studio

Coral Gables, FL

Project Manager

March 2024 - Present

- Spearhead project scheduling, effectively coordinating meetings and facilitating communication across multidisciplinary teams to drive project momentum.
- Employ project management tools (JIRA, Asana) to maintain a transparent workflow and real-time task tracking for all team members in an Agile methodology framework.
- Managed project timelines by conducting weekly team meetings and presenting regular demonstrations to stakeholders.
- Collaborated with studio management to streamline project workflows and restructure organization hierarchy.

INVESCO Advisers Inc.

Atlanta, GA

Research Analyst Intern – Fixed Income Factors Team

June 2023 – July 2023

- Led a collaborative project aimed at diagnosing factor exposures of Fixed Income Mutual Funds and identifying opportunities for performance growth within team's metrics.
- Drafted/transcribed multiple reports for Fixed Income Factors Team when in collaboration with cross-functional teams, to ensure accurate and detailed reference notes pre/post meetings.
- Utilized Excel and R for comprehensive data aggregation and analysis, focusing on industry, peer group data, and macroeconomic factors.
- Maintained Excel-based models for EM Sovereign Credit and Macroeconomic Analysis daily to identify key performance factors, then refining tools ad-hoc, for managers who required detailed and bespoke firm-specific factor analysis.
- Presented two final recommendations to Team lead showcasing findings using various methodologies.

EXTRACURRICULARS

KAPPA THETA PI Professional Technology Fraternity

Coral Gables, FL

President & Co-Founder

August 2023 – Present

- Founded Kappa Theta Pi's (KTP) first chapter at the University of Miami, through promoting/presenting proposal to University Government Board, highlighting organization interests on technology, personal, and professional development.
- Created the fraternity's foundational protocols, governance structure, and operational processes, facilitating its growth and membership sustainability.
- Organized with leadership committee, the first inductee class of 30 members.
- Implemented a robust member engagement program, including bi-weekly meetings, workshops, and speaker events to foster technical, professional, and social skills.

SKILLS

Technical: Java, Python, C++, C, HTML/CSS, JavaScript, Git and Github, Figma

Business Applications: Microsoft Office, Bloomberg, Notion, Asana, Jira

Certifications: Bloomberg Market Concepts, CPR

PROJECTS

WORDLE SIMULATOR

Coral Gables, FL

Java Developer

March 2023

- Developed Wordle simulator where users have 6 attempts to guess a word randomly selected from a predefined array.
- Implemented input validation to ensure 5-letter real word guesses, with feedback on letter accuracy, position, and previous guess deductions.
- Enhanced user experience by providing real-time hints, showing allowed, mandatory, and prohibited letters based on prior inputs.
